

Province/ Territory	British Columbia	Manitoba	Ontario	Newfoundland	Yukon – same app requirements as APEGA
Association Name	APEGBC	Engineers Geoscientists Manitoba	PEO	PEGNL	Engineers Yukon
Options	Limited License or transfer of an existing P.L.Eng*	Specified Scope of Practice License or transfer of an existing P.L.Eng *	Limited License or transfer of an existing P.L.Eng *	Limited License or transfer of an existing P.L.Eng*	Limited License or transfer of an existing P.L.Eng *
Education Requirements	Science degree or a diploma in engineering or geoscience technology	Accredited degree or diploma in applied science or technology	3 year degree or diploma in engineering, technology or science or equivalent (Ontario technology diplomas are 3 years)	A degree or diploma in engineering technology or geoscience technology approved by the committee	At least 2 years of post-secondary education acceptable to the Board of Examiners in engineering or geoscience
Work Experience	8 years of engineering or geoscience work experience with at least 1 year in Canada	8 years of experience with 2 years are direct on the job experience and 4 years are directly within the specified scope with at least one year in Canada	8 years of specialized experience, with 6 years in the proposed scope with 4 of those in a Canadian jurisdiction	8 years of applicable engineering or geoscience work experience, with 4 years in the proposed scope of practice and at least 1 year of Canadian experience	6 years of work acceptable experience in engineering or geoscience, with 2 of these years in your defined scope of practice completed under the supervision and control of a Canadian P.Eng. or P.Geo. and at least 1 year of your experience must be equivalent Canadian experience
Supervision Requirement	2 years under the supervision of a licensed P. Eng or P. Geo	All experience has to be supervised by a P.Eng/P.Geo	4 of the 6 years of scope experience must be under the supervision of a P.Eng	All experience has to be supervised by a P.Eng/ P.Geo	2 years' experience in your defined scope of practice completed under the supervision and control of a Canadian P.Eng. or P.Geo.
References	4 references with first-hand knowledge; 3 must be P.Eng or P.Geo's and 1 must be registered in BC. 2 should have directly supervised the applicant's work.	3 P.Eng/ P.Geo who have current knowledge of the work	3 references; 2 need to be P.Eng's and at least 1 be from a person in authority at the applicant's place of employment	3 reference or more references with first-hand knowledge of the work experience; at least 2 must be P.Eng or P.Geo	3 references who can validate a minimum of 48 months of work experience
NPPE	Previous results will be accepted	Previous results will be accepted		Previous results will be accepted	Previous results will be accepted
Fees (At time of printing)	App: \$472.50 NPPE: \$325.50	App: \$500 (non-refundable) NPPE: \$260	App: \$300+ HST (\$339) (non-refundable)	App: \$220+HST (\$253) Annual dues: \$246.40+ HST (\$283.36) Stamp: \$60 +HST (\$69)	App: \$500 (Non-refundable)
Other Key Information	1. Must take the Professional Engineering and Geoscience Practice in BC Online Seminar (\$288.75) 2. May be required to write exams if you do not meet the academic requirements for your proposed scope 3. Applicants will have to complete a panel interview as part of certification	1. Required to write the Act, Bylaws, and Code of Ethics test as well as the NPPE  *will not start processing applications until April 2017	1. Applicants must be registered with OACETT as a CET before applying for a Limited License and maintain OACETT membership		1. Applications are processed and reviewed by APEGA on behalf of Engineers Yukon; you need to apply through APEGA, after submitting a pre-application to Engineers Yukon to receive a verification code to use to apply (APEGA P.L.Eng app is paper based). Please contact Engineers Yukon and/or APEGA for more details 2. The application requirements are the same as the P.L. (Eng.) with APEGA

P.Tech members can transfer to APEGS using the Interprovincial Labour Mobility Transfer form. P.Techs who transfer to APEGS will be granted a Limited License within their scope of practice.

\* If you hold an existing Limited License from APEGA or another of the above Engineering or Geoscience Associations, you can transfer that Limited License to a different province without having to reapply for a new license. You CANNOT transfer your P.Tech; it must be a limited license as the P.Tech is not recognized outside of Alberta

\*\* The only way to get a limited license in Nova Scotia is to transfer a limited license from another province. They do not offer an independent certification option for anyone without an engineering degree.

There is no option to get a limited license in Prince Edward Island, Quebec, New Brunswick, or the Northwest Territories and Nunavut. You need to have an engineering degree and apply for a professional designation with the Engineering Association (Engineers Prince Edward Island, OIQ, APEGNB, or NAPEG) in order to practice engineering in these provinces/territories. ■
